## Overview:

Dealhaba, a "deal a day" site that uses the power of group buying or bulk buying to get unbeatable deals on the best stuff to do, see, visit, eat and buy in a variety of cities in the UAE.

Dealhaba can make the luxurious things in life affordable as we look for the best experiences and offer them at a price that's hard to beat! We will only feature the best deals on the best restaurants, concerts, events, lessons, tours, spas, salons, retail shops, and much more. Part of what makes this fun for us is trying to expose people to things they wouldn't have done otherwise, like shows, skydiving, cooking classes, architectural tours, salon services or even teeth whitening.

## We delivered:

- A strategy to grow business online.
- A unique website with great user experience design.
- A custom content management system to maintain the website flowlessly.
